1. Installation

```
*****
*   Please make sure FB*3.5*122 has been successfully installed before   *
*   installing FB*3.5*133.                                              *
*                                                                       *
*   FB*3.5*133 MUST be installed immediately after FB*3.5*122 to avoid *
*   application/processing errors.                                       *
*****
```

1.1. Prerequisites

The following patches must be installed prior to FB*3.5*133

FB*3.5*122

1.2. Pre/Post Installation Overview

There are no installer actions required during the pre or post installation process.

The pre-installation routine FBXIP133 will delete the old 5010 provider and service facility fields from the FEE BASIS PAYMENT (#162) file in preparation for the installation to create the fields in a new location.

The post-install routine FBXIP133 will queue a Taskman job to remove any test data from FB*3.5*122 test sites that may be in the old field locations for 5010 provider and servicing facility address.

1.3. Installation Instructions

Fee Basis and Fee Basis Claims System (FBCS) users should not be on the system during installation due to the changes to the data dictionary for the FEE BASIS PAYMENT file.

Install Time - less than 5 minutes

The pre/post installation routine FBXIP133 may be deleted after the tasked job from the post-install has completed.

1. Choose the PackMan message containing this patch.
2. Choose the INSTALL/CHECK MESSAGE PackMan option.
3. From the Kernel Installation and Distribution System Menu, select the Installation Menu. From this menu, you may elect to use the following option. When prompted for the INSTALL enter the patch FB*3.5*133.

- a. Backup a Transport Global - This option will create a backup message of any routines exported with this patch. It will not backup any other changes such as DD's or templates.
 - b. Compare Transport Global to Current System - This option will allow you to view all changes that will be made when this patch is installed. It compares all components of this patch (routines, DD's, templates, etc.).
 - c. Verify Checksums in Transport Global - This option will allow you to ensure the integrity of the routines that are in the transport global.
4. From the Installation Menu, select the Install Package(s) option and choose the patch to install.
 5. When prompted 'Want KIDS to INHIBIT LOGONs during the install?' answer NO
 6. When prompted 'Want to DISABLE Scheduled Options, Menu Options, and Protocols?' answer NO.
 7. If prompted 'Delay Install (Minutes): (0 - 60): 0/' respond 0.

2. Post-Installation Instructions:

None.

3. Technical Guide

Routine Summary

The following is a list of the routine(s) included in this build.
The second line of each routine will look as follows.

```
;;3.5;FEE BASIS;**[Patch List]**;JAN 30, 1995;Build n
```

The checksums below are new checksums and can be checked with
CHECK1^XTSUMBLD.

Name	Before Checksum	After Checksum
