

# INPATIENT MEDICATIONS

## **NURSE'S USER MANUAL**

Version 5.0 January 2005

(Revised July 2011)

## **Revision History**

Each time this manual is updated, the Title Page lists the new revised date and this page describes the changes. If the Revised Pages column lists "All," replace the existing manual with the reissued manual. If the Revised Pages column lists individual entries (e.g., 25, 32), either update the existing manual with the Change Pages Document or print the entire new manual.

Date	Revised Pages	Patch Number	Description
07/0011	O		D 11 DD 0
07/2011	Cover Page	PSJ*5*243	Removed the acronym PD on Cover page Update Revision History
	<u>1 age</u>		Update Index
	i-ii, <u>14</u>		Revised the existing display in the <i>Non-Verified/Pending Orders</i>
			[PSJU VBW] option from a pure alphabetic listing of patient
	<u>138</u>		names, to a categorized listing by priority. Added "priority" to
			Index.
			(N. Goyal, PM; E. Phelps/John Owczarzak, Tech Writers)
04/2011	i	PSJ*5*181	Updated Revision History
	v-vi		Updated Table of Contents
	12		New Example: Patient Information Screen
	13		New Example: Non-Verified/Pending Orders
	15-16d		Updated: Example: Short Profile, HOURS OF RECENTLY
			DC/EXPIRED field (#7) and INPATIENT WARD
			PARAMETERS file (#59.6) information, and Example:
			Profile.
	18		Updated "Select DRUG:"
	20		New Example: Dispense Drug with Possible Dosages and
			New Example: Dispense Drug with Local Possible Dosages
	26-27		New Example: New Order Entry
	33-34b		New Example: New Order Entry (Clinic Location)
	35-39		New Examples of all the New Interventions
	40-40d		Updated the View Profile and New Example: Profile View
	46		New Medication Profile Discontinue Type Codes
	67		New Example: Flagged Order
	71		New Example: Inpatient Profile
	72-73		Updated Order Checks
	74		New Example: Local Outpatient Order Display and New
			Example: Remote Outpatient Order Display
	74a-74c		Duplicate Therapy
	74d-74f		Drug-Drug Interaction
	74f-74g		CPRS Order Checks
	105		Updated Example: Authorized Absence/Discharge
			Summary (continued)

Date	Revised	Patch	Description
	Pages	Number	•
	119-120		CPRS Order checks: How they work
	121-122		Error Messages
	123-136		Glossary - fix page numbering
	137-140		Index - new entries and fix page numbering
			(C.Flegel, S. Heiress, Tech Writer)
06/2010	i-vi, 22-	PSJ*5*113	Added new Order Validation Requirements.
	23, 23a-		Removed Duplicate Order Check Enhancement functionality,
	23b, 24,		PSJ*5*175 (removed in a prior patch).
	24a-24b, 74a-74b,		
	74a-74b, 74e-74f,		
	133, 136-		
	137		Miscellaneous corrections.
	77, 100,		
	103, 108-		(R. Singer, DM, B. Thomas, Tech Writer)
	110, 112,		
	114		
12/2009	60a, 60b	PSJ*5*222	Added description of warning displayed when finishing a
			Complex Unit Dose Order with overlapping admin times.
	vi		Corrected page numbers in Table of Contents. (E. Wright,
0=/=000	40		PM; R. Sutton, Tech Writer)
07/2009	48	PSJ*5*215	When Dispense Drug is edited for an active Unit Dose, an entry
			is added to the activity log. (G. Tucker, PM; S. B. Scudder, Tech Writer)
02/2009	125	PSJ*5*196	Update to IV Duration
02/2007	123	155 5 170	(A. Scott, PM; G. Werner, Tech Writer)
08/2008	19-37,	PSJ*5*134	Inpatient Medication Route changes added, plus details on IV
	58-59, 65,		type changes for infusion orders from CPRS, pending renewal
	134		functions, and expected first dose changes.
			(S. Templeton, PM; G. O'Connor, Tech Writer)
10/2007	iv, 74a-	PSJ*5*175	Modified outpatient header text for display of duplicate orders.
	74d		Added new functionality to Duplicate Drug and Duplicate Class
			definitions.
			Modifications for remote allergies, to ensure all allergies are
	5, 12,		included when doing order checks using VA Drug Class;
	16- 17, 26,	PSJ*5*160	Analgesic order checks match against specific class only; check
	34-38, 41-42,		for remote data interoperability performed when entering patient's chart; and list of remote allergies added to Patient
	72-73		Information screen.
			(R. Singer, PM; E. Phelps/C. Varney, Tech Writer)
07/2007	79a-79b,	PSJ*5*145	On 24-Hour, 7-Day, and 14-Day MAR Reports, added prompt to
	86a-86b,		include Clinic Orders when printing by Ward or Ward Group.

Date	Revised	Patch	Description
	Pages	Number	
	92a-92b		Also added prompt to include Ward Orders when printing by Clinic or Clinic Group.
			(R. Singer, PM; E. Phelps, Tech. Writer)
05/2007	24	PSJ*5*120	Modified Inpatient Medications V. 5.0 to consider the duration the same way as all other stop date parameters, rather than as an override.
			(R. Singer, PM; E. Phelps, Tech. Writer)
12/2005	1,	PSJ*5*146	Remote Data Interoperability (RDI) Project: Removed document
	73-74b		revision dates in Section 1. Introduction. Updated Section 4.9. Order Checks, to include new functionality for remote order checking.
			(E. Williamson, PM; M. Newman, Tech. Writer)
01/2005	All	PSJ*5*111	Reissued entire document to include updates for Inpatient Medications Orders for Outpatients and Non-Standard Schedules. (S. Templeton, PM, R. Singer, PM, M. Newman, Tech. Writer)

(This page included for two-sided copying.)

**Note**: The Ward Group of ^OTHER includes all orders from wards that do not belong to a ward group. Use the *Ward Group Sort* option to select ^OTHER.

Next, the nurse can select which packages to display: Unit Dose Orders, IV Orders, or both, provided this user holds the PSJ RNFINISH and the PSJI RNFINISH keys. If the user holds only one of the RNFINISH keys, then either Unit Dose or IV orders will be displayed.

The next prompt allows the nurse to select non-verified and/or pending orders for a group (G), ward (W), clinic (C), patient (P), or priority (PR). When group is selected, a prompt to select by ward group (W) or clinic group (C) displays.

If ward or ward groups is selected, patients will be listed by wards, then by priority, then by teams, and then by patient name. Patients that have one or more STAT pending orders will be listed first, followed by patients with one or more ASAP pending orders, and then all other patients that have only ROUTINE pending orders. Within each priority, the patient listing is sorted alphabetically by team and then by patient name.

When priority is selected, only patients with the selected priority will display, listed by team and then by patient name.

```
1) Unit Dose Orders
2) IV Orders
Select Package(s) (1-2): 1-2
Select by GROUP (G), WARD (W), CLINIC (C), PATIENT (P), or PRIORITY (PR): PATIENT <Enter>
Select by WARD GROUP (W) or CLINIC GROUP (C): WARD <Enter>
Select PATIENT: PSJPATIENT1,ONE 000-00-0001 08/18/20 B-12 1 EAST
Select PATIENT: <Enter>
```

A profile prompt is displayed asking the nurse to choose a profile for the patient. The nurse can choose a short, long, or no profile. If **NO** profile is chosen, the orders for the patient selected will be displayed, for finishing or verification, by login date with the earliest date showing first. When a pending Unit Dose order has a STAT priority, this order will always be displayed first in the profile view and will be displayed in blinking reverse video. If a profile is chosen, the orders will be selected from this list for processing (any order may be selected). The following example displays a short profile.
